

# Genetics Built on Excellence

## 52 Years Breeding Polled Performance Charolais

Our sincere thank you to everyone who supported our private treaty sale. We sold over half the herd, but still have some elite animals and embryos available. Check with us for availability and prices. Special thanks to Hang'n A Cattle Company of Pasco, Washington for purchasing 11 top animals. It will be a much easier winter, especially with our bulls being fed at Northern Genetics. Plan on attending the bull sale Mar. 27 in Clear Lake, MN featuring Heritage, North Grove and Double-H bulls.

The following elite donors are available. Let us know what bull you would like them flushed to and we will get you the number of embryos you want.

The next generation and as a 2 year old has everything going for her. With 248, Tipper and Distinction (Canadian National Champion) her pedigree can't be beat. Her first calf is in our show string and is already a proven winner. Dream On has recently calved for the second time and is currently ready to flush. She has 50K genetically enhanced EPDs and is Homozygous polled.

An exceptional Grid Maker daughter out of the highly proven Marion 328. She currently has 28 registered progeny with many more to come. We originally sold this great cow as a calf and bought her back as the #1 donor at Southern Cattle Company. Southern had purchased her for \$20,000 in the National Sale. Marion 0429 is in the top 3% of the breed for yearling weight EPD, top 2% rib eye area, top 1% fat and top 2% TSI. Her first 3 sets of ET bull calves at Southern had an average 205 day weaning weight of 730#. She is 50K DNA tested.

If you are looking for fantastic EPDs along with potential to produce show animals, this cow is for you. Genetically enhanced 50K EPDs are in the top 1% of the breed for weaning weight, yearling weight, total maternal, TSI, rib eye area and fat. Top 2% scrotal & top 3% carcass weight. Dibbs ratioed 116 for weaning weight among 7 contemporaries and her first calf weaned had a 205 day weight of 812# with a 110 ratio.

What a fantastic cow. A producer of super show animals along with great performance. We couldn't leave DeBruycker's without bringing this one home. Her first daughter sold in the Sale of Excellence to Bella Angel Farms for \$5,000. Her next calf sold in our bull sale for \$5,000. An embryo son for Chanc McIntire won Grand Champion at the Nebraska State Fair as an 8 month old calf. She has produced several 800+lb. bulls. Curlin is 50K DNA tested and is now in IVF production. Her last 2 flushes produced 7 & 14 grade 1 embryos. Check with us for embryos by Cigar, Outlier (Reserve National Champion) and Resource using sexed heifer semen.

This thick bodied, deep made cow has a tremendous future. That's why Legacy Ranch and Double-H Charolais paid \$18,000 for her as the top selling lot in the Southern Cattle Company Dispersal. She is a full sister to the \$36,000 high seller at M6. New Standard x Cool Rep give her a fantastic pedigree. Outstanding udder quality too.
